

# A Multifaceted Space: Aspects To Treatment In Social Work And Psychology

Kevin A. Sensenig Draft 1.09L 2024 July 27 – 2024 October 19

With this type of dimensional, multifaceted space, potential and actuality become resonant, and necessarily of the subject, each thing and connection being the subjective. And it is all one space, dimension, integrated, and boundless. While integration, function, disintegration, and disjunct are all also integrated, even this situation points to the absolute nature of integration, the benefits of the nondual and function, and the integrated and boundless nature available as a universal, right here.
